

Climate-SDG Integration Project

Key IKI areas of work

- Conserving Biodiversity
- Adapting to Climate Change

Ecosystems-based Adaptation (EbA)

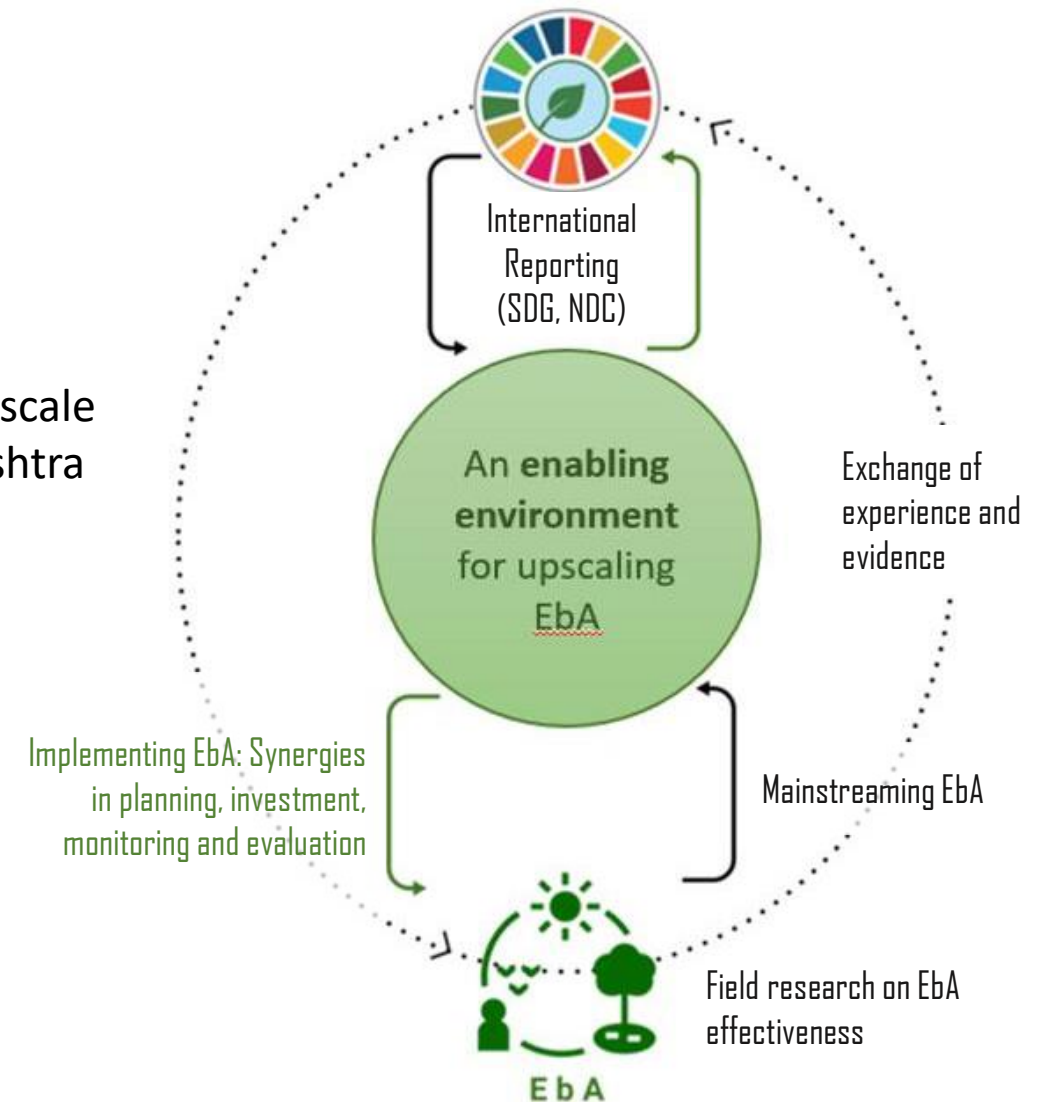

- Global agreements: Paris Agreement and the Agenda 2030

GLOBAL

Roadmap to upscale EbA in Maharashtra

NATIONAL

LOCAL

Supported by:

Climate-SDG Integration Project

Results and Products

- Results:
 - Study of EbA effectiveness, in two villages of Maharashtra.
 - A multi-sectoral expert committee to support the development of the Roadmap.
 - Several sector-based dialogues (biodiversity, agriculture, water, land and forest) for the Roadmap.
 - Contributed to recognising EbA in reforming watershed development programmes.
- Publications:
 - Paper “Scaling Ecosystem-based Adaptation to Climate Change in Maharashtra, India. An Analysis of Policies and Programmes”.
 - Series of Info brief on EbA and its benefits.

Challenges – Open questions

- Endorsement of the Roadmap by the Government.
- Implementation of the Roadmap in the next 10 years.
